

Frontend Developer Specialist

WORK EXPERIENCE

WordPress Front-end Developer | Workit Trading & Services Corp., Canada
06/2023 – Present

COLLABORATION

- Utilized Jira and Figma to discuss customers' requirements.
- Collaborated with designers, backend developers, and the team to ensure high-quality product delivery.

WEB DESIGN

- Designed and developed optimized, responsive user interfaces (UI) for websites and web applications.
- Utilized **React** to build flexible, high-performance UI components.
- Styled modern, customizable layouts using **CSS**.
- Enhanced UX/UI based on user feedback and data analysis.

WEB DEVELOPMENT

- Designed and developed websites for individual clients and small businesses.
- Built high-performance landing pages using **HTML, CSS, JavaScript, React, PHP, and Laravel**.
- Integrated **APIs** and **SQL** to connect frontend interfaces with backend systems.
- Applied **on-page SEO** and performance optimization to boost search engine rankings.
- Worked with content management systems including **WordPress** and **cPanel** for site management and deployment.

PORTFOLIO.

I'm a front-end web developer with 2 years of experience, specializing in WordPress development and UX/UI design. I create responsive, user-friendly websites that are visually appealing and optimized for performance.
